Summary

A Software Development graduate, distinguished by an extensive foundation in Java, Python, and data structures. Possesses adeptness in cloud computing, intricate algorithms, and operating systems. Exhibits a verifiable record of achievement in applied cybersecurity and the successful execution of virtual internships. Exemplifies exceptional analytical prowess and thrives in synergistic international collaborations. Actively seeking opportunities to deploy technical acumen within a dynamic and innovative development milieu.

Education

GL Bajaj Institute of Technology

2021 – 2025

- *Bachelor of Technology in Information Technology*

Sri Sai Inter College, Barabanki

2019 - 2020

- *UP Board (Class XII), Aggregate: 80*

Pioneer Montessori High School, Barabanki

2017 - 2018

- *UP Board (Class X), Aggregate: 91*

Projects

[Travel Booking Website](#)

TECH STACK: PHP, JS, MySQL, XAMMP Apache Server

- Engineered secure and efficient booking platform with php& MySQL
- Enhanced user experience with dynamic JavaScript- powered interfaces, deployed on XAMMP Apache Server for reliable performance and scalability.

[Weather App](#)

TECH STACK: JS, Api

- Seamlessly integrated a weather API to fetch and display up-to-the-minute meteorological data. .
- Developed an interactive UI with advanced search, real-time updates, optimized API calls, data processing, and user preferences like temperature conversion and saved locations.

Skills

- **Languages:** Java(Core) | C and C++ | PYTHON | JAVASCRIPT
- **Technology:** React.js | Node.js | Tailwind | PHP | MySQL
- **Core-Subjects:** Computer Network, Operating System, MySQL , Data Analysis
- **Others:** Git | Github

Certification

Applied Cloud Computing for Software Development 

Cybersecurity Virtual Internship
